

Springkällor

for
piano improviser and seven instruments
score

Springkällor

Oboe, also English Horn
Bassoon
Horn

Percussion:

3 Cymbals (high,medium, low)
Bongos, 1 Congas (medium)
Chimes (with very high, light sound/
the upper, light part)
Marimba
Bass Timpano (D - A) with/without cymbal
Bass Drum

Crotales : 

Grand piano
Harp
Viola
Cello

Score in C
Durata: ca 16 - 18 minutes

Springkällor is a project initiated by the pianist Arne Forén and the composer Madeleine Isaksson in collaboration with KammarensembleN. The realisation was possible thanks to support from Musikverket.

Springkällor is dedicated to Arne Forsén and KammarensembleN.

Springkällor (Wellsprings) inculds:

Inlopp (Inflow) - oboe, marimba, viola (1')
Djupkällan (The Deep source) - bassoon, horn, percussion, harp, viola, cello and piano (ca 4')
Utlopp (Outflow) - oboe, bassoon, horn, percussion, harp, viola and cello (0'30'')
Ljuskällan (The Light source) - oboe, bassoon, horn, percussion, viola and cello (2'30'')
Duokällan (The Duo source) - cello and piano (ca 4')
Springkällan (The Wellspring) - tutti:oboe/engelskt horn, bassoon, horn, percussion, harp, viola, cello, piano (3')
Coda - harpa, piano (ca 1')

In *Djupkällan* the improvising piano has the main role. Other instruments appears and falls sucessively into Djupkällan - bassoon, harp, horn, viola and cello - whereas the percussion is present through the whole part. Each musicien has different material to chose within : fragments of gestures, repeated, rapide figures or other elements. Depending on the interaction between the piano and the active instruments, elements/figures can be repeated, excluded and - as dynamics and articulations - modified. This material is following a global formline: from the depth to more light areas where, more or less, only the piano plays beyond the first middle octave upwards. The conductor controls the upbeats in between each of the five A-parts, and has thereby control over Djupkällans global balance and timing.

In *Duokällan* the piano meets the cello. The cellist has about twenty proposed material-boxes to choose in between. He/she is free to exclude boxes and can also chose the box "free improvisation". *Springkällor* ends with a *Coda* which takes place in between the improvising piano and the harp. The proposed material is here very reduced compared with Duokällan, but otherwise the rules are nearly the same:the harpist can freely choose in between the "boxes" but must start and end with fixe notated mesures.

The mesures with numbers should be conducted, mesures without numbers, not (in Djupkällan, Duokällan, Springkällan and in the Coda).

Seating Layout

Performance Notes

The role of the improvising pianist is, as energy- and inspiration source, fundamental in Springkällor. Since the parts which structures the global score is exactly notated and composed, there are nevertheless estetics challenges which the pianist have to take in account: (the material-boxes in *Djupkällan*, *Duo-källan* and the *Coda* are to be considered as fragments from the global composing/improvising interaction process - see below). The composer propose the pianist a princip of how to built scales, chords and melody cells in his/her improvising parts, from ascending and descending intervals out of this scales of notes:

This notes can be played in any order, in parts, retrograd, in mirror, superposed into chords, fragmented to melody cells. Octavations should follow the indicated tessitura in the score as strictly as possible. Some notes are central notes as eb, and indicated in the score/piano part. Transpositions are possible, but should always be applied with extremely care in the interaction with other musiciens, in order to be well integrated in the overal harmonic construction. If the tone material is thus more controlled by the composer, the rytmical material is less, although le lines in the proposed scales shows a certain gestures of phrases, obvious in thewritten score, which the pianist has to deal with. Thus, above this challenges, the pianist is free to have his personal attitude, proposing and provocating musical ideas etc, awared of bringing out and taking part of a the deep sense and and coherent esthetic of the whole composition.

General:

-  = tremolos should be played un-rythmical and very tight, as a increasing/decreasing moving sound
-  = trills should start in tempo directly (no slow accelerating entrance)
- gliss.* = always full length glissando
- * = important melodic line

This musical score page contains measures 116 through 120. The instrumentation includes Oboe (Ob.), Bassoon (Bsn.), Horn (Hn.), Percussion (Perc.), Harp (Hrp.), Piano (Piano), Viola (Vla.), and Violoncello (Vc.). The score is written in a key with one flat (B-flat) and features a complex rhythmic structure with time signatures of 2/4, 3/4, and 3/8. The tempo is marked 'meno mosso' and 'poco rit.'. The score includes various dynamic markings such as *sf*, *poco f*, *mf*, *p*, *pp*, *fz*, and *molto sul tasto*. There are also performance instructions like 'place cymbal on Timpano' and 'exactly together with the cello/harp'. The score is written for a full orchestra, with the Piano part being a grand piano. The Harp part is written in a standard harp position. The Percussion part includes Crotales, Timpano, and Tam-tam. The woodwinds and strings are written in their standard staves. The score is a page from a larger manuscript, with the measure number 116 in the top left corner.
